ABOUT ME

I am in fifth semester in Bina Nusantara majoring Cyber Security. During my time in college, i try my best to develop any skills related to computer. I can work both individually and collaboratively to achieve optimal security and working project's. Additionally, I am committed to help solve problem's and make decision within team to achieve great result. I'm currently committed to being a Penetration Tester by solving Capture The Flag tests in Tryhackme and Hackthebox.
